The cost associated with cancer can take a financial toll on families. Vantage Care can assist in establishing a comfortable quality of life during recovery. This supplemental cancer insurance policy provides a lump sum benefit that can help relieve some of the financial worries that may arise during recovery.

No one wants to think about the onset of a serious health problem, but it’s important to consider what would happen if you, your spouse, or your child were diagnosed with cancer. The out-of-pocket costs can deplete savings accounts and even cause bankruptcy. Private insurance helps. Vantage Care offers a no-worries solution to many of the financial issues that may arise.

Choosing to protect yourself against the cost of cancer treatment, as well as helping to improve the quality of life for you and those you care about, creates options your family will be grateful to have.

Carcinoma In Situ Benefit

Carcinoma In Situ Benefit

When diagnosed with Carcinoma In Situ, the benefit chosen pays a lump sum of **25% or 100%** of the base benefit.

Optional Additional Occurrence Benefit*

A cancer diagnosis comes with a lot of mixed emotions, whether it's a first diagnosis or another one years later. Knowing that your Vantage Care policy is there for you, again, can help ease any stress you or your family may feel.

*If Heart-Stroke is included in base plan, the Cancer and Heart-Stroke benefit amounts must be equal for this rider to be included.

What is Carcinoma In Situ?

Carcinoma In Situ (CIS) is a **group of abnormal cells** that are found only in the place where they first formed in the body. These abnormal cells may become cancer and spread to nearby normal tissue.

With the optional Additional Occurrence Benefit, you'll receive another lump sum amount in the event of another cancer diagnosis.

*Benefits and availability vary by state. See Outline of Coverage for additional details.

Cancer affects people of all ages. In the United States, approximately **40 out of 100 men** and **39 out of 100 women** will develop cancer during their lifetime.

Vantage Care at Work

Niko's Choice

Niko, an accountant for a popular local bakery, is a stickler for the details. So, making sure he and his family had adequate health care coverage was important to him.

To supplement his current major medical coverage, he purchased \$60,000 in Vantage Care Lump Sum Cancer Insurance, with an optional Additional Occurrence Benefit. His intention was to plan for “just in case” or because “you never know what might happen.” It was a good thing he did, an annual colonoscopy indicated issues. A cancer diagnosis soon followed, after which he was able to receive a \$60,000 benefit.

After much reflection, treatments and a successful recovery, Niko hopes to never have to use his Additional Occurrence Benefit. However, if he does, he knows his decision to have it can help provide needed peace of mind, as well as guarantee him coverage.
